INFORMATION DISCLOSURE STATEMENT

Applicant requests that the Examiner consider references which have come to Applicant's attention based on the citations in the corresponding Japanese Application.

- Laid Open Japanese Utility Model Application No. Hei 6-54498 dated July 26, 1994.

The Japanese Examiner indicates that there are two sliders in this reference with the second connecting part 35 and the ram 11 corresponding to the two sliders. No translation is available to Applicant at this time.

- Published Unexamined Japanese Patent Application No. Sho 61-106221 dated May 24, 1986. This document shows an injection molding machine with two drives (34 and 62). In the document, it is not certain that the two drives operate simultaneously. However, this document shows only an injection molding machine, and does not show a "scale". No full translation is available to Applicant at this time. However, attached is an English language

abstract.

Favorable consideration of the above references is respectfully requested.

Respectfully submitted  
for Applicant,
